PROFESSIONAL SUMMARY

Computer Science and Engineering graduate focused on AI/GenAI engineering and agent-based systems, with hands-on experience building and deploying applications using Python, LangChain, LangGraph, RAG, ChromaDB, Gemini, MCP, and FastAPI. Built and deployed an AI engineering assistant integrating RAG, web search, tool calling, and agentic routing. Strong foundation in Data Structures & Algorithms, OOP, APIs, and software development, with 325+ LeetCode problems solved.

TECHNICAL SKILLS

Programming: Python, JavaScript, SQL

AI / GenAI: LangChain, LangGraph, RAG, Embeddings, Gemini, ChromaDB, MCP

Backend: FastAPI, REST APIs

Frontend: React.js, HTML5, CSS3

Databases: MySQL

Tools & Deployment: Git, GitHub, Docker, Render, VS Code

Core CS: Data Structures & Algorithms, OOP, Problem Solving

COMPETITIVE PROGRAMMING & ACHIEVEMENTS

- Solved **325+ problems on LeetCode**, demonstrating strong problem-solving and algorithmic skills.
- Earned **HackerRank certifications in Python**.
- Completed **Simplilearn certifications** in Git Training, SQL for Beginners, and DBMS Fundamentals & Advanced Concepts.

PROJECTS

AgentFlow – AI Engineering Assistant | Deployed 2026

[GitHub](#) | [Live Demo](#)

Tech Stack: Python, LangChain, LangGraph, Gemini, ChromaDB, RAG, MCP, FastAPI, Tavily, Docker, Render

- Built and deployed an **AI engineering assistant** using LangGraph to route queries across **RAG, web search, MCP tools, and LLM reasoning**.
- Implemented a **RAG pipeline** using Gemini embeddings and ChromaDB for context-grounded responses from a private knowledge base.
- Integrated **Tavily web search and MCP-based tools** for external information retrieval and tool-based computation.
- Developed **FastAPI REST APIs**, containerized the application with Docker, and deployed it on **Render**.

Web Accessibility Analyzer & Visualization Dashboard | 2025–2026

Tech Stack: React.js, JavaScript, Python, HTML5, CSS3

- Developed a responsive **React.js dashboard** to analyze web accessibility across **10+ countries** using automated rule-based checks.
- Implemented accessibility checks for **color contrast, alternative text, and keyboard navigation** based on WCAG 2.1 guidelines.
- Built reusable React components and responsive layouts using **Flexbox and CSS Grid**.
- Designed interactive visualizations to compare accessibility results and identify recurring accessibility gaps across countries.

EDUCATION

Degree	Institute	CGPA / %	Year
B.Tech, CSE	Sri Indu Institute of Engineering & Technology	8.71 CGPA	2022–2026
Senior Secondary (Intermediate)	Sai gayathri junior college for girls	92.5%	2020–2022
Secondary (SSC)	Expert model high school	10.0 GPA	2019–2020
